

HME, INC.

HAAS METAL ENGINEERING

STRUCTURAL STEEL SOLUTIONS

FABRICATED IN THE HEART OF AMERICA

OUR SERVICES

HME offers multiple departments working in unison to manage all phases of your project. This allows us to internally control the schedule to save you time and money on your project. We specialize in design-build, design-assist, design-bid-build, and other project delivery methods.

YOUR TRUSTED PARTNER

HME assures an unparalleled approach to completing the structural and miscellaneous steel of any project. Our experienced employees and innovative approach to the entire project life-cycle provides the capacity to complete your project on time. From preconstruction to the last bolt, we finish our projects safely, with the highest level of quality, and to the satisfaction of our valued customer.

ABOUT HME

For nearly 30 years, we have championed innovative solutions, adopted cutting edge technologies, expanded our capabilities, and grown our workforce to meet the everchanging needs of the construction industry.

Our critical path optimization capability allows materials and information to be delivered quickly and reliably without sacrificing quality. Our 300,000 square foot AISC certified and AISC Complex Coating Endorsed manufacturing facility is second to none in the industry, with four shifts running seven days a week to meet schedules.
